

How to: Collect TEU Token

MyEtherWallet.com

Collection of token can be done during collection periods using the same wallet you have contributed in the TEU ICO/ITS.

Step 1: Go to <https://www.myetherwallet.com> (please do not copy link)

Step 2: Select “Contract”

Step 3: Input Contract Address: “TEUsale.eth”

Step 4: Copy below string and paste into “ABI / JSON Interface” then press “Access”.

```
[{"constant":false,"inputs":[],"name":"collectToken","outputs":[],"payable":false,"type":"function"}]
```

Interact with Contract or [Deploy Contract](#)

Select Existing Contract

Select a contract...

ABI / JSON Interface

```
[{"constant":false,"inputs":[],"name":"collectToken","outputs":[],"payable":false,"type":"function"}]
```

Access

Read / Write Contract

0xa6d3ab499f7b20ce2a9ab5660415ccc19e42c4df

collectToken ▾

Step 5: Select “collectToken” under “Selection a function” dropdown.

Step 6: Unlock your wallet using the same wallet address you contributed.

Step 7: Press “Write”.

Step 8: Set “Amount to Send” = **0 (zero)** and Gas Limit **100,000**

Step 9: Press “Generate Transaction”

There is no urgency to collect the allotted TEU since there is no deadline for collection. If all contributors rush to collect the tokens, it may induce heavy traffic in Ethereum network and drive up the gas price.
